Seminar on “Implication of the Revised Foreign Trade Law: Liberalization of Import/Export, Wholesale/Retail and Distribution to Foreign Invested Enterprises”

The revised “Foreign Trade Law” is in effect on 1 July 2004. Foreign Invested Enterprises (FIEs) who intend to trade in and/or with China have to be well-equipped themselves with the revised terms, registration procedure and approval criteria under this regime.

Senior personnel from KPMG will also introduce the revised taxation arrangement.
